TOPICS OF THE DAY.

The Leaning of Justice.
The insular decisions thus far show four justices leaning one way, four justices leaning the other way, and Justice Brown leaning both ways.

Care Has 27 Physicians.
No other sovereign in the world has so many physicians as the czar. They number 27 and are all selected from among the medical celebrities of Russia.

Measured a Planet.
Dr. See, of the United States naval observatory in Washington, has just concluded a measurement of the planet Mercury with the large telescope of that institution. Its diameter is found to be 2,635 miles.

Half-Million Copies Sold.
Last year there were sold in England 5,000 copies of Mrs. Henry Wood's "East Lynne," bringing the copyright sales of that book up to 500,000 copies. Few books had so great and so constant a sale as Mrs. Wood's best-known novel.

Former Millionaire in Poverty.
Robert Johnson, a former millionaire, who owned a handsome mansion at Mount St. Vincent-on-the-Hudson, and 12 years ago was worth \$2,000,000, is now living in one room of the barn, cooking his own meals, washing his own linen and mending his own clothes.

Woman Owns Immense Ranch.
Mrs. C. N. Whitman, of Denver, owns the largest ranch of any woman in the world. It is located in Texas, near Tacosca, and is called the L. S. ranch, from Lucien Scott, the first owner. The ranch is 30 miles square, and hundreds of cowboys are employed upon it.

Illiterate Voters.
Of 13,329,819 males of voting age in the United States 2,926,205 are illiterate. In other words, one possible voter out of nine is unable to read or write, or to write if able to read. Nearly one-half of all the illiterates in the country are negroes, and about 45 per cent. of all negroes of voting age are illiterate.

Where Economy Comes In.
One of the surprising facts which actual experience with the rural mail delivery has brought out is that it is a great economy compared with the star routes and fourth-class post offices which it supersedes, the saving by the rural delivery being \$175,000,441 on star routes and \$120,221,433 on post offices discontinued.

Vast Army of Letter Carriers.
According to the latest figures the letter carriers employed in regular delivery of mail in free delivery cities number 16,399. The army of letter carriers is a reality these days—it almost equals the effective peace strength of the regular army up to the time of its enlargement previous to the Spanish war.

To Make Indians Vote.
President Roosevelt and Gov. Odell are planning to have about 5,000 Indians living in New York state become voters, but because this right to the franchise would carry with it the payment of taxes on 5,000 acres of productive farm land many of the Indians, entirely satisfied with exemption from taxation without representation, are opposed to the proposition.

Where Expansion Counts.
The register of the federal office holders just published contains 222,000 names and does not include the enlisted men in the army and navy. This represents a remarkable increase within two or three years, and almost entirely from the colonial venture growing out of the Spanish war. In the department of Washington alone there are now 23,000 employees, against 19,446 two years ago.

Stories of the Bible.
Hall Calne, the novelist, states that he is largely indebted for his literary success to the Bible. "I think," he says, "that I know my Bible as few literary men know it. There is no book in the world like it, and the finest novels ever written fall short in interest of any one of the stories it tells. Whatever strong situation I have in my books are not of my creation, but are taken from the Bible."

Growth of Switzerland.
Switzerland is growing fast in numbers and in strength, and its cities are beginning to leap ahead in size and power like the industrial centers of Germany and other progressive countries of Europe. The evidence is found in the census of the Swiss nation recently taken. The latest preceding enumeration was made in 1888. Then the total population was 2,917,754. Now it is found to be 3,312,351. The gain in 12 years was 394,797.

Scully the King of Farmers.
William Scully owns a greater number of farms than any man in the United States. Their aggregate area is 200,000 acres. They are worth \$10,000,000. They are located in central Illinois, western Missouri and Kansas. They represent the accumulation of 50 years of the life of their owner. He is the richest farmer in the richest agricultural section in the world. His wealth is said to be \$25,000,000. William Scully came to this country shortly after the Mexican war for the purpose of investing his money.

Jay Cooke Justified.
Most people have probably forgotten that Jay Cooke, the famous financier who was the financial agent of the government during the rebellion, is still alive. At the age of 80 he is still a hale old man, and he feels that all his predictions were justified when Northern Pacific stock, common, recently sold at par. It was his confidence in the securities of this road which led to the crash in 1873 which carried Jay Cooke off his feet as a great financial power and discredited him before the world.

TOPICS OF THE DAY.

NEWS FROM EVERYWHERE.
FIFTY-SEVENTH CONGRESS.

In the senate, on the 15th, the chief incident of the open session was an agonizing contest between Senators McPherson and Tillman, of South Carolina, the direct result of every bitter controversy which arose between them in their state last spring. Mr. McPherson took occasion to remark that in his opinion both the South Carolina seats were vacant as the result of their resignations tendered to the governor and which he declared became immediately operative and could not be withdrawn. The episode was brought to an abrupt close by Senator McPherson moving an executive session.

In the senate, on the 16th, the open session was devoted to routine business such as the presentation of petitions, memorials and bills. The senate then went into executive session, on motion of Senator McPherson, who had charge of the day's business. In the house, Speaker Hooper delivered his annual message to the committee. This agreement was reached after four hours of debate, sufficiently interesting to insure the attendance of most of the senators. The house was not in session.

The senate was not in session on the 19th. In the house the bill to temporarily suspend the revenue for the Philippines was reported by Mr. Payne, and by unanimous consent, an order for the consideration of the bill on the 19th was adopted. SASKATCHEWAN, WESTERN CANADA, IS CALLED THE "GARDEN OF EDEN."

By a Former Resident of Reed City, Michigan.
In a letter to the Reed City, Mich., Argonaut, Mr. James C. Armstrong, of Melford, Saskatchewan, says, "Writing on 27th May, 1901."

"This is a fine country for a poor man, as he can go out on the hay stacks and cut all the hay he needs. He turns his cattle out on the prairie, and when he is not using his horses, he turns them out also. There is such an abundance of food, they never wander away."

"A lady, who has lived here eight years, told me that this was the original 'Garden of Eden.' I certainly would believe it, if we could only find the apple tree. But as it is, we have strawberries, raspberries, strawberries, cranberries, saskatoons, huckleberries, red and black currants, dewberries, plums, red and black cherries, and red raspberries. All of these fruits grow wild. Then the flowers that dot the prairie, making them look like a real garden. We have eaten of the wild red currants, and they are equal if not superior to those grown in Michigan. As the western farmers are all doing so well, branding cattle and sheep shearing are now progressing. Wool is only five cents a pound, and many ranchers have on hand last year's clip. I enclose you a potato blossom, slice of new potato, which measured 6 1/2 inches when cut. This is no fairy tale, if we are so much farther than Reed City. It is all facts. Come up and see. This has been truly called the 'Garden of the West.' With fruits and flowers, lakes and streams, fish and fowl, beautiful rivers, tracts of timber and mountains, what more does a man want?"

Information concerning Western Canada will be cheerfully given by communicating with the agent of the Government of Canada, whose advertisement appears elsewhere.

The Handsome Calendar of the season (in ten series) six beautiful heads (on six sheets, 10x12 inches), reproductions of paintings by Moran, issued by General Passenger Department, Chicago, Milwaukee & St. Paul Railway, will be sent on receipt of twenty-five cents.
